# What Is Hospitality?

Hospitality is the professional practice of making people feel expected, respected, safe, and cared for.

## Real World Example

A business guest notices whether the team owns the problem, not whether the department chart is perfect. The visible standard is calm, accurate follow-through.

## Activity

Discuss one point in the guest journey where this topic affects satisfaction, then write one behaviour standard your team can use.

# History of Hospitality

From inns and trade routes to luxury hotel brands, hospitality has always balanced welcome, shelter, food, and trust.

## Real World Example

A business guest notices whether the team owns the problem, not whether the department chart is perfect. The visible standard is calm, accurate follow-through.

## Activity

Discuss one point in the guest journey where this topic affects satisfaction, then write one behaviour standard your team can use.

# Hospitality Sectors

Hotels, restaurants, resorts, serviced apartments, events, cruise, contract catering, and destination experiences.

## Real World Example

A business guest notices whether the team owns the problem, not whether the department chart is perfect. The visible standard is calm, accurate follow-through.

## Activity

Discuss one point in the guest journey where this topic affects satisfaction, then write one behaviour standard your team can use.

# Hotel Classifications

Classification communicates expected standards, facilities, consistency, and service promise.

## Real World Example

A business guest notices whether the team owns the problem, not whether the department chart is perfect. The visible standard is calm, accurate follow-through.

## Activity

Discuss one point in the guest journey where this topic affects satisfaction, then write one behaviour standard your team can use.

# Types of Hotels

Business, boutique, resort, airport, extended-stay, budget, luxury, conference, and lifestyle hotels.

## Real World Example

A business guest notices whether the team owns the problem, not whether the department chart is perfect. The visible standard is calm, accurate follow-through.

## Activity

Discuss one point in the guest journey where this topic affects satisfaction, then write one behaviour standard your team can use.

# Customer Expectations

Guests expect accuracy, cleanliness, personal recognition, speed, empathy, and recovery when things go wrong.

## Real World Example

A business guest notices whether the team owns the problem, not whether the department chart is perfect. The visible standard is calm, accurate follow-through.

## Activity

Discuss one point in the guest journey where this topic affects satisfaction, then write one behaviour standard your team can use.

# The Guest Journey

Discovery, booking, arrival, stay, service moments, departure, review, and loyalty follow-up.

## Real World Example

A business guest notices whether the team owns the problem, not whether the department chart is perfect. The visible standard is calm, accurate follow-through.

## Activity

Discuss one point in the guest journey where this topic affects satisfaction, then write one behaviour standard your team can use.

# Professional Behaviour

Appearance, language, ownership, discretion, punctuality, and calm conduct under pressure.

## Real World Example

A business guest notices whether the team owns the problem, not whether the department chart is perfect. The visible standard is calm, accurate follow-through.

## Activity

Discuss one point in the guest journey where this topic affects satisfaction, then write one behaviour standard your team can use.

# Hotel Departments

Front office, housekeeping, food and beverage, concierge, maintenance, security, sales, revenue, and management.

## Real World Example

A business guest notices whether the team owns the problem, not whether the department chart is perfect. The visible standard is calm, accurate follow-through.

## Activity

Discuss one point in the guest journey where this topic affects satisfaction, then write one behaviour standard your team can use.

# Teamwork

Strong service relies on handovers, shared standards, escalation habits, and respect between departments.

## Real World Example

A business guest notices whether the team owns the problem, not whether the department chart is perfect. The visible standard is calm, accurate follow-through.

## Activity

Discuss one point in the guest journey where this topic affects satisfaction, then write one behaviour standard your team can use.

# Trainer Notes and Answer Guide

**Which statement best describes hospitality?**

Creating a safe, welcoming, professional guest experience.

**Name four stages of the guest journey.**

Booking, arrival, stay, departure, review/loyalty.

**What does service recovery mean?**

Actions taken to restore trust after a service failure.

**Give two examples of professional behaviour.**

Punctuality, calm tone, discretion, ownership, appearance.

**Why are handovers important?**

They protect continuity, accuracy, safety, and guest confidence.

**What should staff do before promising a solution?**

Check facts, authority, availability, and expected time.

**Name three hotel departments.**

Front office, housekeeping, F&B, maintenance, concierge, security, sales.

**What is one risk of poor teamwork?**

Delayed service, repeated questions, guest frustration, safety issues.
